Yellow Eliminator

For Swimming Pools

Eliminates yellow or mustard colored debris in pools

Yellow Eliminator is specially formulated to eliminate cloudy water due to accumulations of yellow or mustard-colored debris from pool surfaces.

BENEFITS

- 💧 **Stain remover** – Helps remove yellow stains from pool surfaces
- 💧 **Works as a clarifier** – Helps clarify and clear cloudy pool water by removing the yellow debris and restores the sparkle to the pool
- 💧 **No chlorine demand** – Can be used in pools treated with liquid or dry chlorine products
- 💧 **Compatible with sanitizers** – Is compatible with most chlorine based sanitizers used to treat pools

DIRECTIONS FOR USE

- 💧 Adjust pH of pool water between 7.4 to 7.6, and chlorine residual between 1 to 2 ppm.
- 💧 Brush all affected pool surfaces
- 💧 Add 4 ounces of Yellow Eliminator per 10,000 gallons to affected areas for maximum effectiveness. For severe accumulation problems, double the dosage of the product.
- 💧 Wait 5 minutes and super chlorinate the pool by adding 1 gallon of liquid bleach or 1 pound of dry, granular chlorine per 10,000 gallons of pool water. Follow the chlorine manufacturer's directions for use and method of application.
- 💧 For superior water clarity, super shock pool water with a non-chlorine oxygen shock treatment using 1 pound per 10,000 gallons of pool water.

MAINTENANCE DOSAGE

- 💧 4 ounces of Yellow Eliminator per 10,000 gallons weekly when pool water temperature is above 80° F.
- 💧 Recommended dosage is 2 ounces per 10,000 gallons, when water temperature is under 80° F.

AVAILABILITY: Yellow Eliminator is available in 2 lb bottles.
